KENTUCKY REPUBLICAN PLATFORM.

We are apposed to the free and unlimited coinage of silver, believing that it would involve the country in Annachal rain. We believe in a sound currency and in the use of both gold and silver for coinage, provided always that a dollar in one is made precisely as valuable as a dollar in the of the American tin industry by reason We favor a Tariff so regulated as to protect the

interests of all classes of our citizens upon arti- new Democratic Tariff. cles that may be successfully manufactured or produced in this country, thus insuring good toages to the laborer and a home market to the producer; and in connection with this we favor the re-establishment of the doctrine of reciprocity. We believe that such a system will defray every Government expense, gradually liquidate all indebtedness, restore public confidence and relegate to the rear the undue excitement now prevailing concerning the currency. In view of the past financial history of the Democratic party, its devotion to the old state bank system and wild eat tendencies, we aftern that the Republican party can be more safely trusted to regulate the financial system of the Nation.

We favor an American policy which will protect Americans and American interests in any insures protection without injury to health part of the world at all hazards and will sympathize with struggling Re, utilies rather than the opinion that no article has ever been made ignorant monarchies.

Uncle Sam's Shortage.

The deficit in the National Treasury for the first 36 days of the present fiscal year is \$12,299,011 92.

THERE is sometimes an agreeable disagreement even among Democrats. The Albany Argus, one of the ablest organs of that party, is of opinion that Secretary MORTON has done a good thing in stopping the seed nonsense, and says it cannot recall anything that could be more advantageously dispensed with unless it is the Department of Agriculture

EVERY growing, ambitious city desires more factories. It wants them of different kinds, also, so that one may be busy while another is dull, and skilled labor will be in active demand. In to feel that they are not imposing on us by using order to attract investments all such towns should help elect Protectionist Congressmen, and make their influence felt by Chambers of Commerce and the press in favor of Protection. Such displays of the industrial spirit impel manufacturers to establish factories and encourage their wealthy friends to invest therein. When a town votes for a rempant Free-trader for Congress, and through its Board of Trade denounces manufacturers as "monopolists," it is likely to be left severely alone, despite all FOR RENT-Two four room residences of Footble undoubted natural advantages. A JOURNALIST'S

Sharp Criticism of Our Diplomats in the Orient.

Our Ministers Do Not Rank With Representatives of Other Countries.

This is Particularly So in China and Japan-No Steps Taken to Protect American Citizens-The War Did Much Good in Opening Up Commerce.

WASHINGTON, Aug. 7 .- E. W. Barrett, the Washington correspondent of the Atlanta Constitution, has just returned from a trip to China and Japan. In an nterview with a reporter for the Washington News, Barrett said:

The war has resulted in much good in that it will result in the opening up of China to the commerce of the world. America should get many of the con-cessions that are to be granted in China. They probably will get a few, but unfortunately the diplomatic representatives of America in some of the eastern countries are not the men they should be.

"We have excellent representatives in Consul General McIvor, at Yokohama, and in Consul General Jernigan, at Shanghai, but unfortunately our ministers in both China and Japan seem to have become more Orientals than Americans.

"In the Cheng-Tu riots last May in China, and in the riot only a few days ago, our minister in Pekin has taken no steps to protect American citizens. "I know it to be a fact that in the

riots our citizens had to call upon the English and French for protection. Both of these governments sent gunboats up the Yang-Tse river to protect their citizens, though an American gunboat was at Shanghai at the time. Minister Denby declined the urgent request of American citizens to send it up the river until four days after both French and English gunboats had gone to protect the Europeans.

"With the exceptions I have made, the United States is not represented as it should be in the far east. Our ministers do not rank with the ministers of other countries.

A METEOR,

As Large as the Full Moon With a Train of Pale Blue Light. GREENUP, Ky., Aug. 7.-Monday night as Dr. J. D. Biggs was returning from visiting, a patient out in the country he saddenly saw a large meteor approaching with lightning rapidity from the east. The bright, luminous body appeared to be as large as the full moon, and was followed by a train of pale blue light. which extended at least one mile back in the direction from which the meteor had come. As the strange body approached with terrible velocity made a loud, hissing sound wastell might there been heard miles away.

Just as it reached a point overhead a little beyond where the doctor was scated upon his horse it suddenly exploded with a terrific report and the flery pieces descended to the earth from every side, one of the largest striking in the road not more than one hundred yards distant. The doctor rode up to this while it was still glowing, and, after waiting for it to cool somewhat, picked it up and brought it home with him. The fragment is of a duil gray color, and weighs four pounds. The burdest steel tools fail to make any impression apon its surface.
